EXPERIENCE

WEB DESIGNER

Onehub - Seattle, WA
February 2014 - July 2017

Designer for Onehub's product team taking on many cross-disciplinary design tasks including interactive prototyping, front-end web development, marketing design, HTML emails, illustration, and graphic design.

Redesigned Onehub's website using a mobile-first design approach. Also assisted with front-end development.

Helped maintain and launch new features for Onehub's core web app — a file sharing and collaboration service built with Ruby on Rails.

Designed, prototyped, and assisted with front-end development for Marshal.io — a cloud-based data scanning tool built with React.js. Led the visual branding and identity for Marshal.io.

VISUAL DESIGNER

Electric Pen - Seattle, WA
March 2013 - November 2013

Collaborated with a small team of designers on projects involving branding and identity work, presentation design, web and mobile interface design, HTML and CSS development, web hosting and domain management, file preparation for web developers, icon development, photo editing, and illustration.

Assisted with presentation design work for various tech companies including Microsoft, Juniper Networks, and Cisco Systems.

Set up and updated content on various websites using WordPress and Expression Engine.

Highlight: Redesigned the user interface of REI's employee intranet home page under the direction of senior designer and creative director.

JR. DESIGNER

Student Life Publicity Center
Central Washington University - Ellensburg, WA
September 2009 - June 2012

Met and collaborated with clients, researched and conceptualized ideas, created mock ups and final comps for event and ad campaigns geared towards a college audience.

Prepared files for offset printing and attended press checks.

Fine tuned and developed excellence in creating grid based layouts and publication design, photography, illustration and typography.

EDUCATION

CENTRAL WASHINGTON UNIVERSITY

Bachelor of Fine Arts in Graphic Design
Ellensburg, WA
June 2012
